Subject: Peak Flow Monitoring Times (once a week for rest of year)

Thanks for your support of the two weeks of twice daily peak flow monitoring. I now have a good baseline for most of the students with asthma. I will continue to monitor peak flow readings for your same students on a weekly basis for the rest of the year. Below is the list of your students and the day of the week they should come. Please send these students to the Health Office **as soon as they arrive at school or on their way to breakfast.**

If you forget to send them in the morning, feel free to send them later in the day or the next day. I can take their readings.

Thanks for your support!!

Monday -- 1st graders and K, AM and PM

Tuesday -- 5th graders

Wednesday -- 4th graders

Thursday -- 3rd graders

Friday -- 2nd graders
